

Down the coast (T+M: Dimi Music)

- 1.Verse Two Beanie was an alterboy
He had a bad back but he lived with joy
One day he decided to take a break
He sold his house and packed his bag
Went to the airport bought a quicksnap
He flew away without saying goodbye
- Bridge 1 He went to the beach he camped at a creek
He jumped off a plane it felt so insane
For the first time in his life he lost his fears
- Chorus He hiked through the snow he went with the flow
He sat out at night when the stars were bright
It was the first time in his life that he felt good
- 2.Verse Laine made her way from the US
She had a PHD and she liked to play chess
She was teaching the upper class in Japan
Day in day out she drank the goon
She was so afraid of going home soon
She didn't want to get into the old routine
- Bridge 2 She went to the beach she camped at a creek
She jumped off a plane it felt so insane
For the first time in her life she lost her fears
- Chorus She hiked through the snow she went with the flow
She sat out at night when the stars were bright
It was the first time in her life that she felt good
- 3.Verse We were four when we went on the search
At the first pointbreak we went for a surf
Like the tides the days would pass before our eyes
Lisa had no visa no more
She was far too young to have touched her core
She was on the run and the search had just begun
- Bridge 3 We went to the beach we camped at a creek
We were on the move with the boards on the roof
Drifting with our moods down the coast
- Chorus We hiked through the snow we went with the flow
We sat out at night when the stars were bright
We went to the beach we camped at a creek
We were on the move with the boards on the roof
Drifting with our moods down the coas
Down the coast
