

# Jump into the ocean (lyrics and music by Dimi Music)

Chorus  
Jump into the ocean as you look up to the sky  
The summer heat on your skin and you feel like you could fly  
Jump into the ocean see the ships passing by  
Your heart is beating faster and surely you know why

1.Verse  
So you paddle out and catch your wave  
You show your style and show your grace  
In few seconds it`s all gone  
But in your dreams you will hang on  
So take the chance as much as you can  
Pack your shit and drive your van  
Go on search for your favourite spot  
You can ride it hard and smoke it hot  
I said ride it hard and smoke it hot

Chorus

2.Verse  
When the sun is rising and you`re sitting there  
There`s nothing that you have to share  
All you used to depend on  
Is worth nothing but you life goes on  
Travel the world and find your way  
To discover the answer one fine day  
Then you will know what it`s all about  
You will sing with me and you will shout  
You will sing with me and you will shout

Chorus

Solo

So you paddle out and catch your wave  
You show your style and show your grace  
In few seconds it`s all gone  
But in your dreams you will hang on  
Yeah in your dreams you will hang on

Chorus 2x
