

Just playing (T+M: Dimi Music)

1. Travelling the alps of France
Jamming with some different bands
You know how nights this can end
Ladies please give me a hand

When I arrived at Chamonix
I went straight to the MBC
I met this guy named Gerry B
I don't know why he had to pick on me

Chorus yeah me I'm just playing
Whatever I can
See the smokecloud coming
From my groovy old van
Yeah I got a smile on my face
Which is honest and not full of hase
`Cause I love what I do – and so should you...

2. We met these lads who came from Spain
They put us in some real big pain
`Cause we took again that shit cocaine
which hit my head like a freight train

After that I had to sleep for two days
I couldn't keep up the pase
The lads left without any trace
And I'm back on my chase

Chorus s.o.

Solo

3. I still have three months to go
A few others resorts or so
My money is always low
Fuck it let's follow the snow

Chorus s.o.
