

# Next stop Byron Bay (T+M: Dimi)

- 1.Verse I lived in a freezer I served the groundfeeder  
Seaguls and ferrols have never seen barrels  
And Bushie means everyones pussie  
Thomy built the snowpark a state of art  
We went out at night and gave it a ride  
But he rain washed it down the drain
- Chorus1 That's why I'm heading off to Byron Bay  
I will take the bus I'm on my way  
I try to find some peace and find some waves  
Sit on a hill Sit on a hill Sit on a hill - and watch the whales
- 2.Verse It was Mick and Harm who always stayed calm  
She stole the warm water in the bathroom I caught her  
I really freaked out – Dude I got loud  
If U blow out the fuse there's no excuse  
How many times have I told my room will get cold  
How can I blame a dumm birdbrain
- Chorus1 s.o.
- Solo
3. Verse Why were they just bitchin' only fights in the kitchen  
Who has the power and who cleans the shower  
What a big disgrace is this place  
I didn't make enough money didn't get the right bunny  
The few that I had they made me just mad  
See a good fuck doesn't always mean luck
- Chorus1 s.o.
- Chorus2 And now I'm hanging here in Lennox Bay  
I don't know how much longer I will stay  
I found some peace and found some waves  
Sat on a hill sat on a hill sat on a hill and watched the whales
