

What's going on (lyrics and music by Dimi Music)

1.Verse History will teach us nothing is what somebody said
And it's seems to be like it cause the news are always the same
Soldiers are fighting while her majesty sleeps at night
Cause a man on a donkey seems so damn hard to find

But nobody cares
Cause the sunshine is bright
The Tele is on
The programm is so nice

Chorus What's going on
Something seems to be wrong
What's going on
Something seems to be wrong
What's going on

2.Verse People are starving whilest others are too fat to move
Everything's big and we're dancing the x-tra large groove
Oil fields are burning as the president is swearing to god
Promising changes cause elections they shouldn't be lost

But nobody cares
Cause the sunshine is bright
The Tele is on
The programm is so nice

Chorus What's going on
Something seems to be wrong
What's going on
Something seems to be wrong
What's going on
